

# DX-8

## HEAVY-DUTY DESTRUCTION DEVICE

### Rugged, Fast, and Reliable Hard Drive Destruction

#### KEY FEATURES:

- Listed on the National Security Agency (NSA) Evaluated Products List for Hard Disk Drive Destruction Devices.
- Meets DoD compliance guidelines for the physical damage of hard disk drive media\* NSA/CSS 9-12.
- Fastest destruction device available providing the greatest efficiency in a destruction device.
- Durable construction with minimal maintenance. No parts to sharpen, oil or constantly replace like in traditional shredders.
- Versatile; the exit chute can be set to any one of three configurations to suit your facility and footprint requirements.
- The DX-8 can be seamlessly linked to the Data Security, Inc.® LM-1 Degausser creating an efficient and effective degauss and destroy system.

#### DEGAUSS THEN DESTROY:

NSA/DoD magnetic media sanitization regulations require the use of an NSA evaluated degausser, at minimum. In addition, the NSA requires degaussing be followed by physical destruction prior to disposal. For complete compliance, pair the DX-8 with the LM-1 Degausser that is listed in the NSA Evaluated Products List for Magnetic Degaussers.

#### HEAVY-DUTY PERFORMANCE:

Designed for simple, quiet and reliable operation, the DX-8 will thoroughly damage any hard drive. Within seconds, hard drives are destroyed into waffle-like shredded pattern which breaks and shatters the hard disk drive and platters inside. The mangled remnants drop into your waste bin for quick disposal. It is fast, easy, quiet, safe, and clean.

*\*The DX-8 is not recommended for all tapes. Please contact Data Security Inc,® for more information.*

<b>TECHNOLOGY</b>	Internal destruction mechanism crushes and physically destroys hard disk drives
<b>OPERATION</b>	Automatic (gravity-fed)
<b>MEDIA SIZE</b>	Accommodates hard disk drives up to 1.03" x 4.3" / 28mm x 109mm. Accepts hard drives in their caddies/sleds, up to 1.03"H x 4.41" W x 8.02"D without disassembly.
<b>FORM FACTORS</b>	Accommodates 3.5 inch format, 1/3rd HDD and 1" or smaller HDDs*
<b>CYCLE TIME</b>	Seconds
<b>DUTY CYCLE</b>	Continuous
<b>NSA-TESTED THROUGHPUT</b>	1,315 hard drives/hr
<b>POWER</b>	208V/9A/60Hz or 230V/8A/50Hz
<b>VIBRATION</b>	Designed to withstand commercial shipping and handling conditions
<b>ACOUSTICS</b>	Slight mechanical hum to faint cracking or popping from media as it is crushed inside the machine
<b>DIMENSIONS</b>	21" W x 40" D x 36.6" H (excluding chutes) 530mm W x 1010mm D x 930mm H
<b>WEIGHT</b>	734 lbs / 333 kg
<b>ACCESSORIES</b>	Wheels included, optional degauss and destroy package available
<b>MANUFACTURER</b>	Made in the USA by Data Security, Inc.® 1-800-225-7554 www.DataSecurityInc.com

*Specifications subject to change without notice. Note: The DX-8 will not provide any erasure of hard disk drives; it is recommended that hard disk drives be erased by an NSA evaluated degausser prior to destruction.*

**LONGEST LIFESPAN**

The DX-8 is built to last with crushing components that resist chipping and dulling. Unlike traditional hard drive shredders, there are no parts to sharpen, oil or constantly replace. This provides uninterrupted operation, reducing down time and maintenance costs.

**HASSLE FREE**

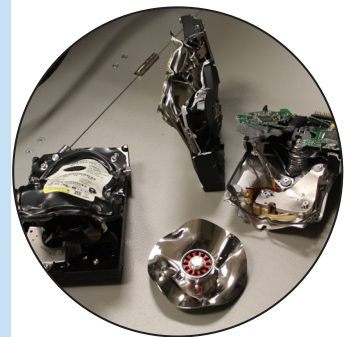

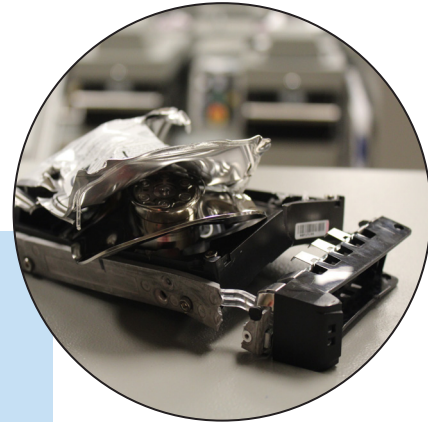

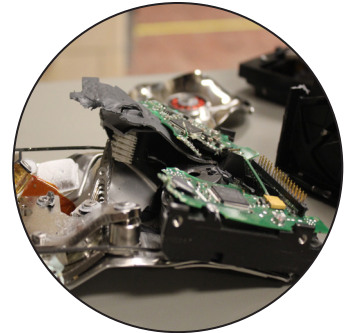

The DX-8 includes an easy to use jam reverse mode for continuous use.

**SAFETY CONTROLS**

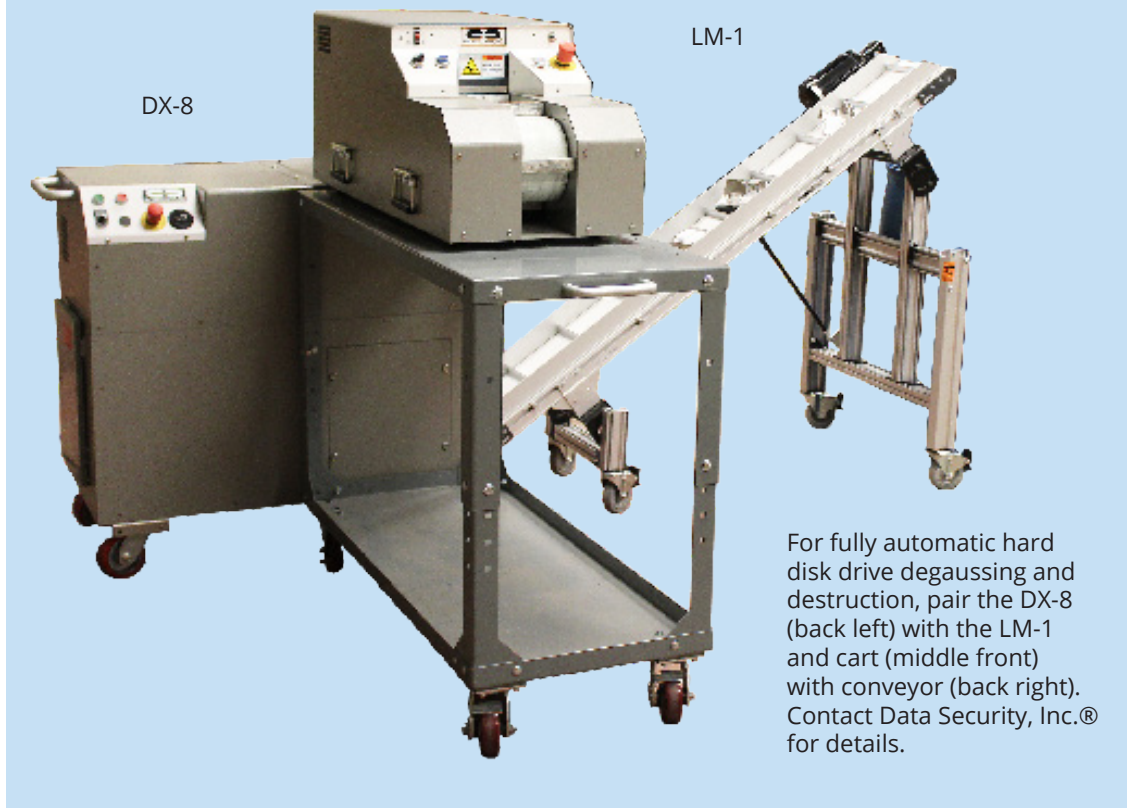

The destruction mechanism of the DX-8 is housed deep inside the machine, safely protecting the operator from harm at all times. In the event of an emergency, a manual stop button halts the operation of the machine.

Backside view shows the hard disk drive exit chute and electrical panel.

**OPTIONAL DEGAUSS AND DESTROY CONFIGURATION**

For fully automatic hard disk drive degaussing and destruction, pair the DX-8 (back left) with the LM-1 and cart (middle front) with conveyor (back right). Contact Data Security, Inc.® for details.
