

SS16-A™

SOLID STATE SHREDDER

KEY FEATURES:

- For the routine and emergency destruction of solid state storage media such as memory cards, circuit boards, thumb drives, smartphones and solid state drives
- Simple, automatic push-button operation, designed for reliability, performance, and operator safety
- Portable and convenient with a minimal footprint; ideal for offices, emergency or mobile environments

31.1"W x 27.5"D x 21.2"H
(790mmW x 699mmD x 538mmH)

PERFORMANCE AND SAFETY FEATURES:

Turn it on and feed prepared media into the slot. Within seconds, the memory/circuit board is destroyed to particles that vary from 5mm x 5mm to 43mm x 16mm in size. The low-dust particulate is collected within the internal, easy-to-empty debris bin.

EASY OPERATION:

- Feed light and bin full indicator
- Senses and automatically adjusts to clear and prevent jams
- HEPA and carbon air filtration
- Emergency stop; blades that are out of reach
- Safety interlocks prohibit operation when the door is open

The SS16-A™ Solid State Shredder meets the following regulatory* requirements for the destruction of information:

- GDPR
- PCI Data Security Standard
- NAID AAA Certification
- NIST SP 800-53 and SP 800-88
- GLBA
- FISMA
- HIPAA

*This is a sample list of common regulations, not an exhaustive list. Please contact Data Security Inc.® to discuss any other regulatory requirements.

TECHNOLOGY	Single-stage shredder
OPERATION	Automatic
MEDIA SIZE	Accommodates solid state storage media up to 0.6" (15.5mm) x 3.8" (97mm)
CYCLE TIME	5 sec. per SSD or phone, 2 sec. per USB
DUTY CYCLE	Continuous
THROUGHPUT	40 pounds/hr (18kg/hr), up to 720 phones, 720 SSDs, 1800 USB
POWER	120V/60HZ/5A or 230V/50HZ/2.5A
ACOUSTICS	Slight mechanical hum from the device with muffled sounds of the media processing (65dB)
DIMENSIONS	31.1"W x 27.5"D x 21.2"H (790mmW x 699mmD x 538mmH)
WEIGHT	315 lbs (143kg)
ACCESSORIES	Includes 3 disposable debris bags. Wheeled cart and additional disposable debris bags sold separately.
MANUFACTURER	Made in the USA by Data Security Inc.® +1-800-225-7554 • DataSecurityInc.com

Specifications subject to change without notice. Some media disassembly recommended; removal of all batteries required. Micro memory cards need to be larger than 16mm on at least one side.
